

Delivering service, quality and value.

Our Mission

Rox Hospitality is to be a reliable and respected business partner, functioning sustainably for the benefit of our consumers, our staff, our suppliers and our local communities.

Our Vision

Rox Hospitality will be the number one supplier of hospitality, janitorial, washroom, packaging and coffee products, through a dedication to surpassing our clients' expectations in every aspect of our dealing.

Rox Industries was established in 1933 by the Walker Brothers. Focusing on quality and service, the company built a strong reputation in the industry, specialising in manufacture of grease guns and lubrication and soap dispensing equipment.

Seventy-one years later, in 2004, Rox came under new ownership, and has remained with the family since. In that time, we decided to further address customer needs by not only providing soap dispensing equipment, but by offering the product used in these dispensers. In doing this, we began to open new avenues in the field of chemical and washroom supplies. Rox has since moved further into washroom, cleaning, janitorial and hospitality supplies, and recently made the transition from 'Rox Industries' to 'Rox Hospitality', as we feel this better reflects our vision and identity.

Rox Hospitality still adheres to, and strongly believes in the fundamental business values of quality and trustworthiness. Relationships with both customers and suppliers are founded on respect and the concept of working together, to offer a superior product at an exceptional price.

In recent years we have seen exciting new developments in the coffee and foodservice industries, moving into providing specialty roast coffee for our customers, alongside a range of crockery and glassware to suit any café/ restaurant's style.

Offering quality service to the NSW South Coast we provide a full range of products to suit your every hospitality need; from floor chemicals to coffee cups.
